Monthly Tuition: ₹600 per month (includes progress workbooks and competition mock papers).

2.3 NE Unique Calligraphy & Handwriting Improvement

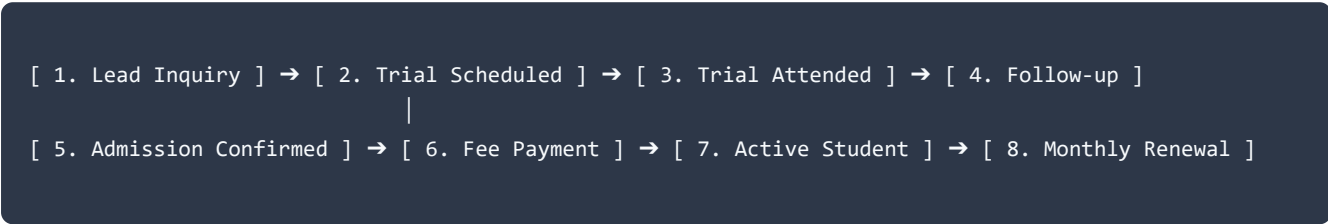

A specialized developmental course correcting pencil grip, finger strain, and messy exam papers while teaching decorative lettering.

- **Phase 1: Handwriting Rehabilitation** — Ergonomic posture, 45-degree pen angle, letter proportion, line spacing, cursive loops for neat school examination scripts.
- **Phase 2: Formal Calligraphy Scripts** — Gothic Blackletter, Italic, and Modern Brush Lettering with dual-tip artist markers.
- **Phase 3: Portfolio & Capstone** — Designing greeting cards, diplomas, motivational quotes, and certificates.
- **Tuition:** ₹500 per month (starter calligraphic kit provided).

Part 3: 11-Stage Student Lifecycle CRM

Operating Manual

NOHADAYA utilizes a comprehensive, automated 11-stage pipeline transitioning prospective inquiries into active students and long-term renewals:

3.1 Operating the 11 Stages

Stage	Trigger / Action	Admin System Responsibility
1. New Lead (NEW_LEAD)	Parent submits website modal or contact form.	System auto-generates collision-proof Ref (e.g. NOH-260911-2345-482), stores lead in SQLite & JSON, triggers email alert to owner.
2. Trial Scheduled (TRIAL_BOOKED)	Admin contacts parent to confirm trial date.	Set date and time picker. System triggers automated WhatsApp Trial Confirmation template.
3. Trial Attended (TRIAL_ATTENDED)	Student arrives at studio on Roseland Road.	Instructor checks in student. Status set to Attended, No-Show, or Rescheduled.
4. Follow-up & Evaluation (FOLLOW_UP)	Next-day phone call or WhatsApp survey.	Instructor notes child's concentration or adult's flexibility. Logs interest level.
5. Admission Confirmed (ADMITTED)	Parent decides to enroll student.	Assigns official Registration Number (e.g. NOH-26-YOG-0108), selects batch and package.
6. Tuition Paid (PAID)	Payment collected via UPI, Cash, or Bank Transfer.	Records receipt number, amount (₹), and payment mode.
7. Active Student	Student attends regular scheduled batches.	Maintains active roster status.
8. Monthly Renewal Engine	Payment Date + 30 Days automatically calculated.	System automatically flags accounts due within 7 days or overdue in red on dashboard.

3.2 Accessing the CRM Dashboard

The CRM dashboard is located at `website/nohadaya/leads-admin.html`. It operates on a **Local-First Hybrid Architecture**:

- When the Python backend (`contact_server.py`) or Node backend is running on `http://localhost:5000`, all updates sync directly to the persistent SQLite database (`leads.db`).
- When operating offline or as a static site, all lead changes, status transitions, and notes automatically save to browser `localStorage['nohadaya_leads']`.
- **1-Click CSV Export:** Clicking “Export CSV” downloads the entire registry with dates, registration IDs, payment receipts, and phone numbers for accounting.

5.2 Google Business Profile (GBP) Review Management

- **Review Generation Cadence:** Every Friday, send the direct Google Review link to parents whose children have completed 1 month in the program.
- **Direct Review URL:** https://maps.app.goo.gl/cJE7DFjCNrw2roVSA?g_st=aw
- **Review Response Standard:** Always respond to Google reviews within 24 hours citing the student's name, discipline, and locality (e.g. *"Thank you Mr. Ahmed! We are so proud of your son's abacus*

progress at our Bagharbari studio!"). This embeds local ranking signals into Google Maps.

Part 6: Technical Maintenance & Deployment Manual

6.1 Netlify Hosting Deployment

The website is pre-configured with `website/nohadaya/netlify.toml` and `website/nohadaya/_redirects` for zero-configuration, continuous deployment:

1. Push the repository to GitHub or drag-and-drop the `website/nohadaya/` folder directly into the Netlify Web App dashboard.
2. **Publish Directory:** Set to `.` (root of folder).
3. **Domain Customization:** In Netlify Domain Settings, configure custom apex domain `nohadayastudio.com`. DNS records will automatically enable Let's Encrypt Wildcard SSL.

6.2 Updating Course Fees & Batch Timings

To update course fees or batch times in the future:

- **HTML Homepage:** Open `website/nohadaya/index.html` and edit the pricing cards under `id="pricing"`.
- **Schema.org JSON-LD:** Also update the `offers.price` property inside the JSON-LD script block in the `<head>` to keep Google Search synced with actual prices.
- **Landing Pages:** Update corresponding pricing tables in `yoga-classes-guwahati/index.html`, `abacus-classes-guwahati/index.html`, and `calligraphy-classes-guwahati/index.html`.

6.3 Adding New Authentic Studio Photographs

1. Place the new JPEG photograph in `website/nohadaya/images/`.
2. Convert to next-gen WebP using Python Pillow (`quality=85`) to maintain fast page speed.
3. Add explicit width and height attributes to the new `<img>` element to prevent Cumulative Layout Shift (CLS).
4. Add a descriptive `alt` tag incorporating natural location terms.
